Daily Field Report

Date : 02/29/2024
Project No : 2023C195
Client Company : Toll Bros. Inc.
Arrival Time : 02/29/2024 14:30
Onsite Hours : 02:30

ASEC Report ID : 64581
Name of the Project : Kimbal Bridge Tract
Project Location : Alpharetta
Weather : cloudy
Departure Time : 02/29/2024 17:00
ASEC Technician Name : Aminullah Azimi

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

- The placement and compaction of fill soils for the basement of Lot #10 and Lot #10 (pad), continued this day.
- At the time of arrival, our representative observed that work was in progress with 1-foot lifts being placed and compacted using a sheeps-foot compactor.
- Density test results indicate that the compacted materials met the project requirement of 90% of the maximum dry density obtained by the (Standard Proctor ASTM 698),

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
