Our ASEC representative arrived on site, as requested, and observed:

The proof-roll of Friendship Falls Way from STA 17+00 to STA 23+00 and Friendship Creek Drive from STA 0+00 to STA 10+87.5.

The existing subgrade in both roadways appeared to be at finished grade elevation based on the information provided by grading contractor,

A fully loaded tandem axle truck was used to proof-roll the above-mentioned subgrades with multiple parallel and perpendicular passes across the area.

No severe pumping and/or deflection was observed during the proof-rolling of both areas.
