At the request of the client's representative, our AS ENGINEERING AND CONSULTING, LLC (ASEC) representative visited the job site to observe the contractor's work activities from a quality standpoint to assure compliance with project drawings/specifications, applicable codes, and materials submittals and conducted QC testing per the project drawings and specifications. The following observations were made on site this shift:

- Performed logger reading for lane 5, lane 7 and lane 9.
- Was to observe a proof-roll for the shoulder at west of phase 1A, lane 1, however, it was later canceled for the day.
