

Date : 02/22/2024
Project No : 2022C165
Client Company : Toll Bros. Inc.
Arrival Time : 02/22/2024 16:00
Onsite Hours : 01:00

ASEC Report ID : 64401
Name of the Project : Northfield @ Polo Fields - Phase2
Project Location : Pittman Road, Cumming, GA
Weather : sunny
Departure Time : 02/22/2024 17:00
ASEC Technician Name : Aminullah Azimi

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

- The placement and compaction of fill soils, for the roadway in the front of Lot #18 and Lot #19, continued this day.
- At the time of arrival, lift thickness was not observed as soil was placed and compacted prior to arrival. Compaction was performed using a sheep-foot (CP56B) compactor.
- Density test results indicate that the compacted materials met the project requirement of 90% of the maximum dry density obtained by the (Standard Proctor ASTM 698),

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
