Name of the Project : Enclave at Parkway Village
Project Location : Union City
Weather : Sunny
Departure Time : 12/20/2024 13:00
ASEC Technician Name : Micah Aycock

Our AS Engineering & Consulting (ASEC) representative arrived on site to observe field activities. The following tasks were performed:

Our representative was on site to visually inspect the foundations for Lot #60 using Dynamic Cone Penetrometer (DCP) testing. DCP results indicated that the footings met a soil bearing pressure of 2000 psf. In place rebar was found to meet job specifications for size, spacing and quantity. These footings are suitable for concrete placement.

Please contact us if you have any questions regarding this report or of the density test results.
