AS ENGINEERING AND CONSULTING, LLC (ASEC) representative Vidal Dias visited the site at the request of Jackson Demolition representative Josh Kelly. The undersigned representative was present to monitor, verify and document the ongoing project activities.

During the visit, the following observations were made:

1. The contractor placed two 20-inch HDPE pipes with an inner diameter eighteen inches (18") and outer diameter of O.D (21") in the south trench located in area F7.
2. Fifty-seven (57) stone was placed between pipes and trench walls, up to 4" inches of cover to the top of the pipe.
3. Fifty-seven(57) and twenty - four (24) stone was mixed and placed up to eight inches (8") below the finished grade.
4. Materials were placed in accordance with ITP: 013
