Name of the Project : N. Gate - Old Atlanta Road
Project Location : Cumming
Weather : sunny
Departure Time : 05/23/2024 11:00
ASEC Technician Name : Aminullah Azimi

At the request of the client's representative, our AS ENGINEERING AND CONSULTING, LLC (ASEC) representative visited the job site to visually observe the contractor's work activities from a quality standpoint to verify compliance with project drawings/specifications, applicable codes, and materials submittals and conducted QC testing per the project drawings and specifications. The following observations were made on site this shift:

- A proof-roll observation was performed on the subbase materials for the roadway and acceleration and deceleration lanes, as located in by yellow in the attached sketch.
- A fully loaded tandem-axle dump truck was used to proof-roll the above-mentioned subgrade with multiple passes across the area.
- No severe yielding and/or deflection was observed during the proof-roll at all areas mentioned above. (except for a few small areas in red in the attached sketch. It was recommended to undercut these materials to a depth of 6' and replaced GAB.
