As requested, our AS Engineering & Consulting LLC representative was on site to observe daily activities. The following activities were done:

- 1) Stripped the previous day beams and placed in curing tank.
- 2) Moisture tests performed for #4 and #67 sands.
- 3) Air content, concrete temperature, slump and unit weight tests performed for the first truck placement. Cast one set of test cylinders.
- 4) Air content, concrete temperature, slump and unit weight tests performed for the first truck placement. Cast one set of test beams.

Kenneth Mosman
