As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

- Sunbelt Asphalt. Base course placed with approximately 6 inches of Cement Treated Base (CTB) from STA 3+00 to STA 6+00, with density testing following.
- Sampling of soil cement taken to our laboratory for a moisture-density relationship to be performed.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.
