Onsite Hours : 06:00

ASEC Report ID : 1732
Name of the Project : Northfields at Polo Fields
Project Location : 4805 Pittman Road, Forsyth County, Georgia
Weather : Sunny
Departure Time : 02/24/2021 14:00
ASEC Technician Name : Dave Bek

The site was visited by the undersigned AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to assure compliance with project drawings/specifications, applicable codes, and materials submittals. The following observations were made on site today

- Excavation continued on the temporary retention pond SD4-3(located on Lots 33 - 34) a full size Hitachi Excavator was used, along with a full size bulldozer to move the the cut material to the perimeter of the pond (along edge of the property) and compacted with a full size Sheepsfoot Roller. Based on visual observation of the material placed and random probing of the placed lifts, the fill placed appears to be acceptable.
