The site was visited by the undersigned AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to assure compliance with project drawings/specifications, applicable codes, and materials submittals. The following observations were made on site today

- Work began on the second temporary retention pond SD4-1 (Lots 35 - 36) with a full size bulldozer and a full size Hitachi Excavator. The area appears to be free of organic material.
