Name of the Project : Owen Mills - Owens Store Rd
Project Location : Canton
Weather : clear and sunny
Departure Time : 07/01/2026 11::0
ASEC Technician Name : Narayana Ganesh Undavalli

As requested, the site was visited by our AS Engineering and Consulting (ASEC) representative for the purpose of providing quality control inspection and testing services. Visual observation techniques were employed to verify compliance with project drawing/specifications, applicable codes, and materials submittals. The following observations were observed on site this day.

I've been to site to watch the proof roll for the road but the soil is wet and not ready for the clipping. That's why the contractor has cancelled it and rescheduled to another day.

We appreciate the opportunity to be of service to you on this project. If you have any questions regarding this report, please feel free to contact us. We will be more than happy to discuss it with you.

The results presented in this report relate only to the items tested. This report shall not be reproduced, except in full, without written approval from AS Engineering and Consulting LLC.
